

Revised Caspar Headlands Trail Maintenance Map

- Trails mowed by State Parks**
- 1** 12' wide *Access Trail* follows recently mowed trail
 - 1** 4' wide *Inn Trail* follows existing trail EXCEPT AS REROUTED at ✖ - see note **A**
 - 2** 4' wide *Berry Trail* follows existing trail

- Social trails**
- 1** *Broom trail* - maintained by neighbors
 - 2** *Ramp trail* - needs volunteer help and rerouting
 - 3** *Gulch trail* - needs volunteer help to maintain

- SPECIAL TREATMENT NOTES**
- A** Please REROUTE this short segment of the Inn Trail to preserve and protect the young stand of Shore Pine that have recently been abused by trail users. The suggested new route follows the traditional road more faithfully.
 - B** The trailhead of the Inn Trail is presently very broad and invites vehicular traffic. Posts and signage required to preserve and protect the headlands
 - C** Low hanging Cypress branches make this trail difficult. Original roadway overgrown.
